

# Integrated Emergency Phone and Paging System

## Use Your Phone System to Secure Your Schools.

Emergencies don't wait for a convenient time to strike. Jive Safety Suite leverages and expands your existing systems to launch a coordinated emergency response. Be prepared, and instill confidence in students, staff, and the community with a budget-conscious safety solution.

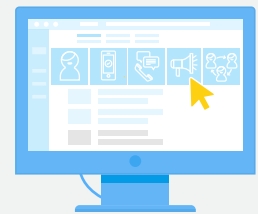

### STUDENT AND STAFF ALERTS

Seamlessly integrate your phones, bell, intercom, and paging systems to quickly send a single alert to your campus through all your IP devices.

### REMOTE ALERT AND LOCKDOWN

Trigger a group page or a school-wide lockdown, even if you're not at your desk or are off campus, using a mobile app or any nearby deskphone.

### EASY ONLINE MANAGEMENT

Jive's flexible online admin portal allows you to add endpoints easily and to configure zones and locations with a few clicks on your computer or phone.

Enhance school safety without an expensive overhaul.
