

Your Business Phone Applications

Securely call and text from your business number on your mobile device, desktop, or web browser.

Your phone system should be as flexible and on-the-go as you are. Whatever your preferences or needs, between Jive's three apps you can work and communicate from anywhere.

JIVE MOBILE

Take your business communications with you on your mobile device so you never miss a call. Enjoy secure, HD audio quality, battery-life optimized, and reliable service to call and text/SMS anywhere outside the office.

JIVE WEB

Bypass the complexity of creating and registering a softphone by making phone calls through your web browser—no phone is necessary. Also see your messages with our visual voicemail.

JIVE DESKTOP

Download a unified communications software onto your laptop or desktop computer to easily access your corporate directory, monitor contacts' phone presence, and reach out to them via voice or text/SMS.

TRUE MOBILITY

HOME

Use Jive Desktop and Jive Mobile to work remotely.

VISITING ANOTHER OFFICE

Use Jive Web and our hot desking feature to make any company desk *your* desk!

ON THE GO

Use Jive Mobile to never miss a call.

FEATURES

TEXT/SMS

Send and receive text/SMS messages from your business phone number.

PRESENCE MONITORING

Eliminate time-wasting activities like phone tag. See if your coworkers are available to take your call.

COMPANY DIRECTORY

Search your company directory contacts by name, organize them into a favorites bar, and add new contacts.

HD AUDIO

Jive Mobile utilizes Opus to scale between 8 and 50 kbps to adapt and maintain your call quality. Jive Web uses less bandwidth and offers better audio quality.

SECURITY

Communicate on the go knowing your conversations are safe. Jive encrypts the signaling between your devices, servers, and media streams with TLS and SRTP.

GEOFENCING

Create location-based rules that automatically turns on/off Do Not Disturb and other call rules, depending on if you're in the office or at home. Only available on Jive Mobile.
